

**OUTDOOR DECOR TRENDS**  
SPRING/SUMMER 2018

delightFULL®  
Unique Lamps

# INTRODUCTION

**With the evenings getting fastly warmer and Summer right at the door, it is time to freshen up your garden decor! Spending more and more time outside, you need the perfect lighting solution to spice up a party or just relax with your loved ones.**

**In this ebook you will find all the materials you need to make the right choice for your outdoor setting. We have gathered for you a wide selection of lighting designs that are rocking the scene right now, and you'll also get moodboards and examples from the best color trends of the season, as selected from Pantone.**

# COLOR TRENDS

The colors trending this summer are various and exciting, not your regular hues! We present a selection of our favorites, that will look great in your outdoor setting!

Meadowlark

Think yellow.

That's the key shade for next season, and the perfect hue to match the green color of a beautiful garden, spiced up by lemon plants. Whatever the shade is, yellow adds a touch of brightness to any palette and gives a contemporary feeling to industrial lamps such as the bold Number One of DelightFULL's Graphic Collection.

[CLICK FOR MORE](#)

Being a bright and bold color, yellow is just now starting to be used in furniture, but the results are pretty amazing, especially for sunny outdoors settings. We love the energy that yellow gives to this minimal seat from Alexander Lotersztain for Les Basic.

For a more elegant and distinctive touch, the best solution is to choose a golden hue in a bold, geometric shape. We think that A Letter from DelightFULL's collection is the perfect example.

**Millennial Pink keeps going strong.**

**Being the craze of the year, pink in any shade is the perfect choice for an unexpected twist to an outdoor furniture piece. It is perfect to pair it with a white contemporary lighting, for an effortless and young feeling that fully embodies the millennial generation.**

**Blooming Dahlia**

Everything can be pink!  
Embrace your inner  
flamingo by choosing  
unexpected furniture like  
the architectural chair  
from Crosby Studios  
or release your  
emotions by creating  
bold and colourful  
words with DelightFULL's  
Graphic Collection.

Nebulas Blue

A touch of blue is an elegant & eye-catching choice.

Not only recalling images of waves and sandy beaches, the trending hue this year is more electric and mysterious. This trend is perfectly embodied by DelightFULL's B lamp, with its shiny neons and sinuous shape.

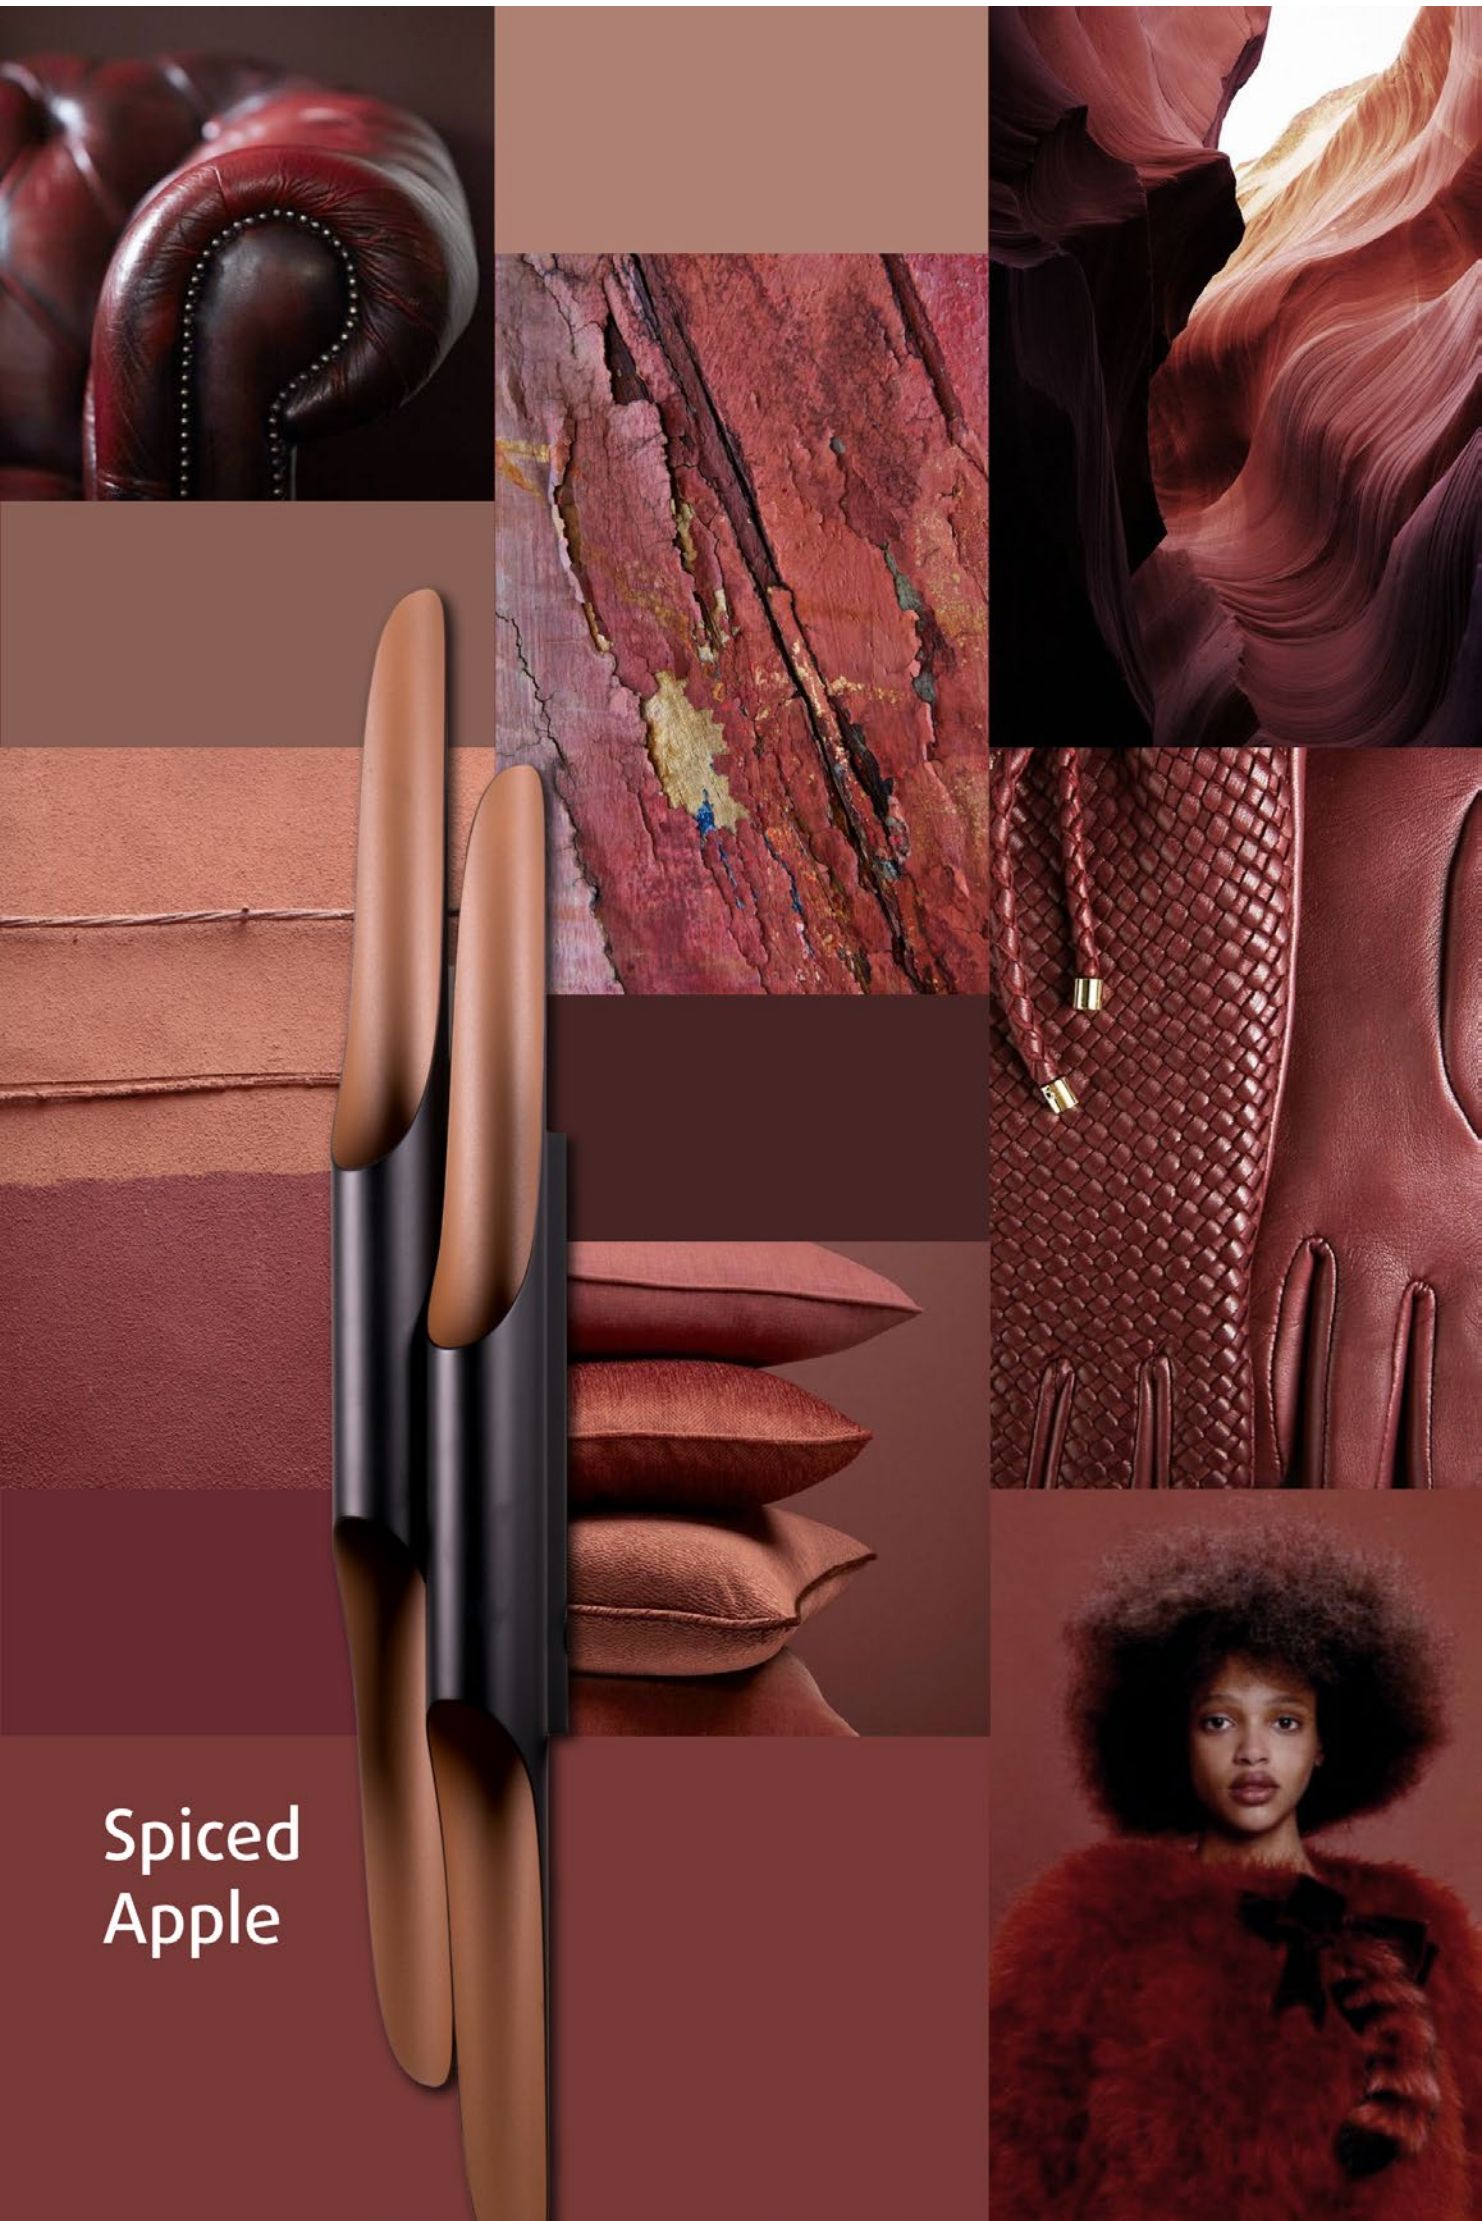

[CLICK FOR MORE](#)

Blue is not a color that goes unnoticed. A touch of deep blue on a monolithic outdoor seating such as these beautiful examples from B&B Italia can instantly create a luxurious vacation feel.

We suggest you let your imagination go places with the magical electric blue of the Graphic Collection.

Spiced  
Apple

The warm flavour  
of foreign lands right  
outside your door.

The perfect color  
to match hot summer  
days is a deep brown  
with a red undertone.  
A lamp piece in this  
shade, such as Coltrane  
Wall from DelightFULL's  
Heritage collection  
is able to give warmth  
to modern and  
minimalistic settings  
that would otherwise  
feel cold and rigid.

Warm colors speak about summer relaxing days and exciting long nights. These hues are perfectly complemented by minimalistic furniture, such as InOut collection by Paola Navone for Gervasoni.

As a lighting choice, Galliano wall from DelightFULL's Heritage Collection is the perfect piece to select for the contemporary luxurious summer house that needs a mid-century twist to be unique.

# TRENDING NOW

**How to make your outdoor setting cozy or classy or ready for a party? No worries, we have all the insights to help you achieve your goal!**

## 1- TIKI TORCHES AND BARE BULBS

Tiki torches are nothing new on the scene, but they receive a modern twist if used in unexpected ways, creating a fairy tale feeling for a dreamy garden. Bare bulbs hanging around are another big trend and sure way to get the outdoor setting of your dreams.

## 2 – BIG GLOWING ELEMENTS

For a more “big city life” touch, the best solution is to go bold and fearless with huge glowing elements that not only bring light but also give character to the space. Think rooftop party with the amazing letters from DelightFULL’s Graphic Collection.

[CLICK FOR MORE](#)

### 3 – UNEXPECTED COMBOS

The best way to give new life to a space is to feel free to mix&match different styles and create unexpected combos that will leave your guests speechless and fascinated.

Mixing candle light and bulb is a quick way to do this, but why not try something more special, like big letters going together with paper party lights?

# STYLING TIPS

In this chapter we explain a few tricks to help you understand how to choose the right lighting to uplift your garden or backyard setting!

## LESS IS MORE

A minimalistic choice can go a long way, especially when it comes to light design. Choosing a simple but strongly characterizing shape such as the one of Coltrane Wall Lamp from DelightFULL's Heritage Collection means gaining an ageless feel of effortless elegance for your patio.

## GO BRIGHT AND CLEAN

Scandinavian style is still going strong; this means that white, minimalistic design combined with natural hues and material is the best choice to be on trend. Outdoor style follows the trend too, as you can see in the beautiful woven chairs by Monica Armani for Varaschin.

We suggest to add a touch of industrial to it with a big stainless steel letter like W from DelightFULL's Graphic Collection.

## BRING THE INDOORS OUTSIDE

With the passion for big windows and open spaces, the relationship between outdoor and indoor has never been stronger.

Look for furniture that can fit both situations and create a unique style that will “wow” your guests”!
