

EVANS | WALL

Evans is a contemporary wall light with a heavy mid-century modern influence, making it an exquisite lighting design. This modern wall sconce is designed and handmade in Portugal, ensuring a high level of craftsmanship and the best final product. Both the lamp mount and the body are handmade in brass with a gold-plated finish, while the lamp shades are made of aluminum, with a standard matte black finish. This black wall light features two movable diffusers, which can be adjusted both upwards and downwards for a more comfortable ambience. This versatility makes this indoor wall lamp the perfect task light, but it does also look stunning as a bedroom wall sconce.
