

DIANA | TABLE

Diana is a vintage table lamp inspired by some of the greatest design classics of the mid-century era. It is a handmade lamp built with materials such as brass and aluminum. Brass was used on the body, whilst aluminum was chosen for the shade. The aluminum shade is lacquered a glossy red on the outside and matte white on the inside, while for the body a nickel-plated finish was chosen. However, both these colors and finishes can be customized according to your needs. This small lamp is easily the perfect reading light, having a movable and adjustable shade, that casts light to where it is needed. It best fits more minimalist or industrial environments. The perfect study table lamp.
